WHAT THE WORDS MEAN

Bullish, Bearish

The direction of our view for the day.

Key support

The level a bullish view rests on. While the price holds above it, the view stands.

Key resistance

The level a bearish view rests on. While the price stays below it, the view stands.

Target 1, Target 2

Where the move is expected to reach first, then in extension.

Scenario 1, Scenario 2

Two ways the day may go: one while the key level holds, one if it breaks. Neither is trading advice.
